“ Dear Darlene, I'm so sorry I didn't attend your moms funeral I have so many issues with my own life some days I don't remember. But I pray and send the angels to comfort you and your family for such a great lost. I always wonder why we was so close in the beginning and then drifted away but the beginning was because your mom family had a farm in Webb where my family was and that's how it started. I enjoyed our many night she entertained us on the weekends your mom always made sure we was having a good time and was always willing to let us out as long as we ate when it was time and we was in the house by time. I'm sorry that this is all I remember except your daddy's story's in the morning over breakfast was always so funny. I love you Darlene and I feel so sad for you right now. I hope you are finding comfort in all the memories she gave you to teach the next generation of her love thru you now. God put there love always in our hands to move forward. May god bless y'all and I will go by and visit her at the gravesite.she was a unremarkable beautiful free spirit joy to know. Sincerely Darlene Pressley
